PROFILE

Passionate junior software engineer with a knack for problem-solving and creating quality software solutions. Experienced in requirements analysis and deployment. Proven track record of meeting project deadlines and exceeding client expectations. Dedicated to innovation and delivering software solutions..

EDUCATION

Bachelor's Degree in Computer Science

Slovak Technical University 

09/2023 – present

Bratislava, Slovakia

As a student in the Computer Science program at the Slovak Technical University, I'm actively acquiring software engineering principles through rigorous coursework and practical projects.

PROFESSIONAL EXPERIENCE

Junior .NET core and Umbraco Developer.

Addis Software PLC 

09/2021 – 08/2022

Addis Ababa, Ethiopia

Addis Software PLC, based in Addis Ababa, Ethiopia, I specialized in website and application development using .NET Core and Umbraco technologies. With .NET Core, I focused on backend development, harnessing its powerful features to build robust project foundations.

In Umbraco, I utilized its user-friendly content management system to enable clients to manage their content effortlessly. My responsibilities included implementing features such as user authentication, data management, and dynamic content rendering using these technologies. This approach ensured the delivery of efficient, scalable, and easy-to-maintain solutions to our clients.

Junior MERN Stack Developer

Upwork

04/2023 – present

remote

- ➡ Developed and maintained MERN stack web applications, ensuring functionality and scalability.
- ➡ Collaborated with cross-functional teams to translate requirements into software solutions.
- ➡ Implemented RESTful APIs and integrated third-party services to enhance application functionality.
- ➡ Conducted thorough testing, debugging, and implemented security measures for high-quality deliverables.

PROJECTS

Asbeza Ecommerce Website

Created a MERN stack Ecommerce website, enabling seamless online shopping experience. Integrated features for product listings, shopping cart, secure payments, and user authentication. Empowered businesses to showcase and sell their products to a wide customer base.

Scholarship Terms

Developed and launched Scholarshipterm.com, a comprehensive website providing information on fellowships, completely funded scholarships, and study abroad opportunities. Assisted students in finding valuable scholarships offered by various countries, including Canada, Australia, the USA, and Europe.

SKILLS

programming Languages

C#, Python ,JavaScript, and ,TypeScript

Frameworks

.NET, React, Angular , Umbraco and Nodejs.

Databases

MongoDB , MySQL and PostgreSQL.

Version Control

Git ,GitHub and Bitbucket

Soft Skills

Excellent communication and collaboration skills, with the ability to work effectively in team environments. Strong problem-solving and adaptability skills, demonstrated through successful project deliveries and handling challenging situations.

Testing

Jest ,Cypress and Mocha.

Deployment

Vercel, Netlify and Heroku.

CERTIFICATES

- Certified React Developer (Summer Bootcamp), 2022
- Certified C# Developer Codeacademy , 2020
- Certified Angular Developer (Tutorialspoint), 2023
- Certified MERN stack Developer (Evangadi Networks) ,2021
- Microsoft Certified .NET Developer,2020

AWARDS

Best Intern MERN Stack Developer, Tria Trading plc

Recognized for exemplary skills in JavaScript, React, Node.js, and MongoDB. Contributed to the development of robust web applications using MERN stack, with expertise in UI/UX, RESTful APIs, and backend functionality.

Bego Stota Charity Website Design

Honored with an award by Bego Stota Charity for designing their website pro bono. Demonstrated exceptional design skills and created an engaging and user-friendly website to promote their charitable initiatives. Contributed to the organization's online presence and helped raise awareness for their cause.
